

**NOTICE OF MEETING**

**ORDINARY COUNCIL**

Members of Council are advised that a meeting will be held in the Council Chambers 83 Mandurah Terrace, Mandurah on:

**Tuesday 25 October 2022 at 5.30pm**

**MARK R NEWMAN**  
Chief Executive Officer  
13 October 2022

# AGENDA

**1. OPENING OF MEETING AND ANNOUNCEMENT OF VISITORS**

**2. ACKNOWLEDGEMENT OF COUNTRY**

**3. APOLOGIES**

**4. IMPORTANT NOTE**

Members of the public are advised that any decisions made at the meeting tonight, can be revoked, pursuant to the *Local Government Act 1995*. Therefore, members of the public should not rely on any decisions until formal notification in writing by Council has been received.

**5. ANSWERS TO QUESTIONS TAKEN ON NOTICE**

**6. PUBLIC QUESTION TIME**

Public Question time provides an opportunity for members of the public to ask a question of Council. For more information regarding Public Question Time please visit the City's website [mandurah.wa.gov.au](http://mandurah.wa.gov.au) or telephone 9550 3787.

**7. PUBLIC STATEMENT TIME**

Any person or group wishing to make a Public Statement to Council regarding a matter concerning local government must complete an application form. For more information regarding Public Statement Time please visit the City's website [mandurah.wa.gov.au](http://mandurah.wa.gov.au) or telephone 9550 3787.

**8. LEAVE OF ABSENCE REQUESTS**

**9. PETITIONS**

**10. PRESENTATIONS**

**11. DEPUTATIONS**

Any person or group wishing to make a Deputation to Council regarding a matter listed on this agenda for consideration must complete an application form. For more information regarding making a deputation please visit the City's website [mandurah.wa.gov.au](http://mandurah.wa.gov.au) or telephone 9550 3787.

**12. CONFIRMATION OF MINUTES**

13.1 Ordinary Council Meeting: 27 September 2022

Minutes available on the City's website via [mandurah.wa.gov.au/council/council-meetings/agendas-and-minutes](http://mandurah.wa.gov.au/council/council-meetings/agendas-and-minutes)

**13. ANNOUNCEMENTS BY THE PRESIDING MEMBER (WITHOUT DISCUSSION)****14. DECLARATIONS OF FINANCIAL, PROXIMITY AND IMPARTIALITY INTERESTS****15. QUESTIONS FROM ELECTED MEMBERS (WITHOUT DISCUSSION)**

16.1 Questions of which due notice has been given

16.2 Questions of which notice has not been given

**16. BUSINESS LEFT OVER FROM PREVIOUS MEETING****17. RECOMMENDATIONS OF COMMITTEES****18. REPORTS**

<b>No.</b>	<b>Item</b>	<b>Page No</b>	<b>Note</b>

<b>1</b>	<b>SUBJECT:</b>	2021/22 Mosquito Management Annual Report
	<b>DIRECTOR:</b>	Business Services
	<b>MEETING:</b>	Council
	<b>MEETING DATE:</b>	25 October 2022

---

## Summary

This annual report provides an overview of mosquito management activities undertaken during the 2021/22 season by the City, in partnership with the Peel Mosquito Management Group (PMMG) and the WA Department of Health (DoH).

The 2021/22 season was very challenging and comparable to season 2020/21, with back to back La Niña climatic events. Through ongoing field surveillance and aerial larvicide treatments, the City and PMMG were able to minimise the risk to the community of mosquito borne disease in the form of Ross River virus (RRV) and Barmah Forrest virus (BFV).

Tidal inundation of estuarine wetland breeding grounds was again relentless and prolonged, providing saltmarsh mosquitoes with the ideal environmental conditions to maintain and intensify their reproduction cycles across the entire season.

Twenty-four (24) aerial larviciding treatments covering a total of 5,276.8 hectares were undertaken between 1 July 2021 and 30 June 2022 and was the third largest area treated in the program's history.

A total of thirty-nine (39) human cases of RRV were reported for Mandurah, which is slightly lower compared to the forty-seven (47) reported during season 2020/21. Overall the RRV case numbers remained below the monthly five year moving average for all but the month of October 2021.

A similar decline in human cases was recorded for the Peel region, with the peak in cases reported in January 2022. A decrease in reported cases across the state (599) of Ross River virus (RRV) was also recorded when compared to season 2020/21 (827). As in every year, a range of complex factors including the environmental conditions, virus cycles and the abundance of mosquitoes State-wide all contribute to the incidence of RRV across Western Australia.

No human cases of BFV were reported for Mandurah with just the two (2) cases reported for the Peel region during 2021/22, compared to one (1) case in 2020/21.

## Background

Members of the PMMG include the DoH, City of Mandurah, Shire of Murray, City of Rockingham and Shire of Waroona. This group has a long history of collaboration, in excess of 30 years of delivering successful management of mosquitoes across the Peel Region.

The purpose of this report is to provide a review of the events and outcomes in relation to the environmental drivers of mosquito breeding cycles, mosquito management operations and the prevalence of mosquito-borne disease that occurred during the 2021/22 season. The report also includes information on adult mosquito abundance, community education initiatives and the financial activities of the PMMG during the season.

Saltmarsh mosquitoes species pose a higher health risk and nuisance factor to residents and visitors across the Peel region. There is extensive breeding habitat (estimated to be up to 600Ha) in fringing vegetation of the Peel Harvey Estuary and its tributaries. The majority of the City's residential suburbs and recreational facilities are within the established flight range of saltmarsh mosquitoes.

Mosquito management in the Peel Region is primarily undertaken through aerial larviciding treatments via the DoH contracted helicopter provider. This service and method of treatment is essential given the regional disease risk, extensive breeding habitat and prolific mosquito breeding cycles.

Helicopter application of larvicides specifically targets mosquito larval populations as they develop in the water. This technique successfully reduces a high percentage of mosquito larvae that if untreated would emerge as adult mosquitoes and pose a greater risk of disease transmission within the community.

The intensity of larval and adult saltmarsh mosquito abundance and the effectiveness of larvicide treatments are heavily influenced by environmental factors such as wind, tidal movements and vegetation canopy.

## **Comment**

### Climate Influences

Climate drivers are a key factor in influencing the intensity and duration of each season.

The El Niño Southern Oscillation (ENSO) is the swing between the El Niño phase, the La Niña phase and the Neutral phase with each phase having a very different effect on the Australian climate. In the past, El Niño phases present seasons of lower mosquito abundance, Neutral phases generally provide moderate seasons whereas La Niña phases bring the most challenging conditions for mosquito management in the Peel Region.

As was predicted by climate monitoring agencies, the build up to a La Niña event took place through Spring 2021 and by November the establishment of La Niña was confirmed resulting in back to back La Niña events. The influence of the 2021/22 La Niña on our regional and local weather patterns replicated those faced in season 2020/21 with highly active weather patterns.

The 2021/22 La Niña event had finally weakened by July 2022, however some atmospheric indicators remained at levels predicting a 50% chance of a third La Niña event forming later in 2022.

Along with La Niña, other climate drivers such as the Indian Ocean Dipole (IOD), Southern Annular Mode (SAM) and Madden–Julian Oscillation (MJO) were also interacting and influencing our climate.

**Figure 1.** below, provides a timeline of past ENSO events and their duration and the reestablishment of La Niña in late 2021 and into 2022.

**Figure 1 - ENSO timeline 2010 - 2022**  
(Source: Australian Bureau of Meteorology)

Regional and Local Weather

Regional and local environmental conditions also play an important role in the ability for saltmarsh mosquitoes to sustain their breeding cycles in the Peel Region. Weather systems such as low and high pressure systems, approaching cold fronts and wind forces, west coast troughs, tropical cyclones reaching the mid-west and rainfall inflow into regional river systems, either individually or as a combination can have significant impacts on local tide and water level behaviour within the Peel Harvey Estuary.

No significant weather events such as tropical cyclones impacted the Peel region during the 2021/22 season.

Air and water temperatures also play a critical role by influencing the speed of larvae development with warmer water temperatures promoting the egg to adult development cycle in as little as four (4) days. The monitoring of the speed of development of larvae is critical in the timing of aerial treatments.

Water Level Observations

The breeding cycles and seasonal abundance of saltmarsh mosquitoes in the Peel region are primarily driven by the frequency and intensity of water level changes and wetland flooding within the Peel Harvey waterways.

Whilst forecast variations in tidal levels within the Peel-Harvey system are often less than 30cm, actual water levels fluctuate greatly from tide predictions. Tidal surges of 40cm above predicted peak heights are a regular occurrence within the Peel-Harvey estuary. These tides known as storm surge tides are not always linked with a storm front, rainfall event or even an obvious change in our local weather. Generally, local storm surges are generated by the cold fronts crossing the southern west coast or low pressure systems and surface troughs that extend down from northern Australia and establish over the west coast which result in sea level changes.

Storm surges can inundate vast areas of breeding habitat and trigger the hatching of mosquito larvae in their billions. Hatching may occur as a single event or repeatedly over a number of days. The eggs of saltmarsh mosquitoes have the ability to remain in a dormant state over weeks, months and even years. This results in the build-up of egg bank loading over long periods and allows breeding cycles to be sustained. As experienced in past seasons influenced by La Niña, tidal inundation during season 2021/22 was persistent and at times prolonged. During the season there were very few periods when the wetland breeding sites dried out, as can occur in less intense breeding seasons. This drying of sites provides a natural disruption to mosquito breeding cycles.

**Figure 2.** below provides an account of tide height frequency over the last five seasons. The notable difference between seasons 2021/22 and 2020/21 was the reduction in frequency of peak tides above 0.95m and an increase in peak tides higher than 0.70m to 0.80m.

**Figure 2 - Comparison of peak tide heights recorded between 2017/18 – 2021/22**

Source: Department of Transport's Mandurah Ocean Marina tide gauge data.

### Aerial Larviciding

The aerial application of larvicides is the primary technique that the program employs to allow targeted, effective and reliable reduction of saltmarsh mosquito populations on a broad scale. This technique is the most efficient method available and allows the rapid application of different larvicide formulations. Aerial application also allows the larvicides to be applied to the region's saltmarsh mosquito breeding habitats in a manner that provides minimal environmental impact in comparison to on ground methods.

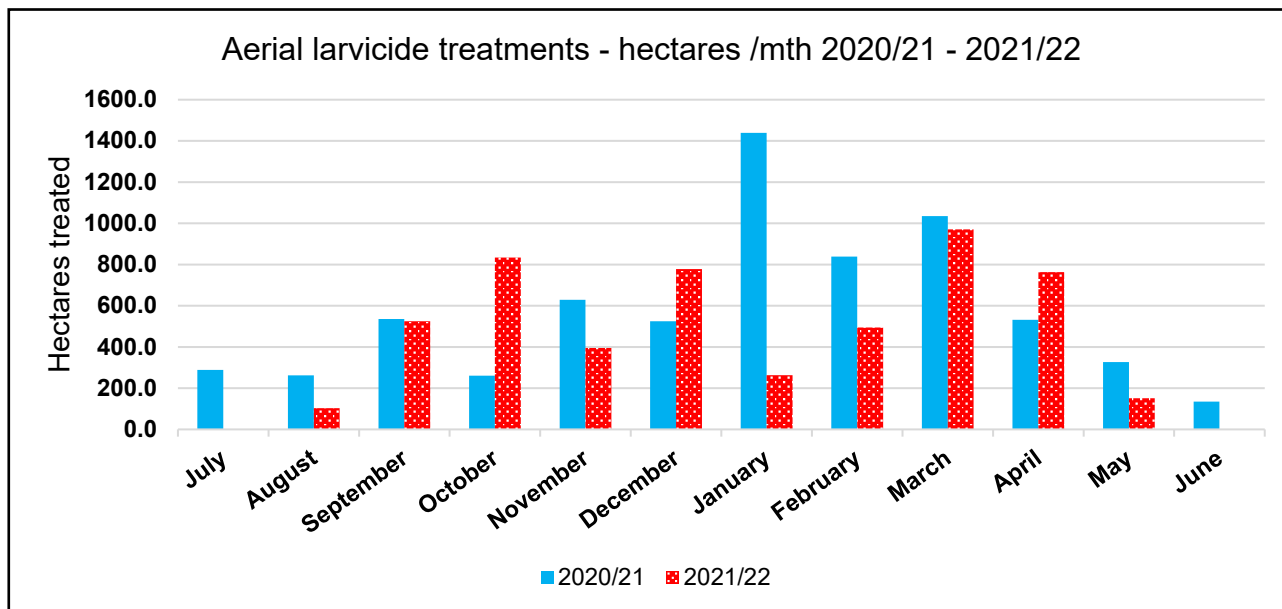

In certain scenarios, there may only be a small window of one day for an effective aerial treatment to occur. In these situations it is vital that accurate and timely field surveillance relating to water levels, larval densities and development rates occurs so that informed decisions regarding larvicide selection and the timing of the application can be made in order to have the highest reduction on mosquito populations. In addition to field surveillance, it is crucial the timing of the treatment also includes factors such as weather conditions and fluctuating water levels within 24 – 48 hrs of the application taking place.

The two active ingredients within the larvicides used are (S)-methoprene and *Bti* (*Bacillus thuringiensis israelensis*). These actives have been approved for use by the Australian Pesticides and Veterinary Medicines Authority and are used by mosquito control agencies worldwide. They are currently the most environmentally appropriate larvicide formulations available and target specific. Both (S)-methoprene and *Bti* are certified for the management of mosquitoes in natural and urban environments and consistently provide high mortality rates to larval populations resulting in significant reduction in adult mosquito abundance.

Twenty-four (24) aerial larviciding treatments were completed across the season covering a total of 5,276.8 hectares. Aerial treatments commenced on 6 August 2021 with the final treatment for the season completed on 31 May 2022. December 2021 was the most intense period with four (4) treatments required as a result of repeated tidal inundations. March 2022 recorded the largest area treated in a single month at 970.7 hectares across three (3) aerial treatments.

Throughout the entire season, City officers remained focused on field surveillance to ensure aerial treatments were effective in reducing mosquito larvae populations and subsequent surges in adult mosquitoes.

**Figure 3.** below provides a summary of the season’s aerial treatment activities by month when compared to season 2020/21.

**Figure 3 – Aerial larvicide treatments by month 2020/21 - 2021/22.**

Key outcomes of the season’s aerial larviciding treatments were:

- 24 aerial larviciding treatments undertaken between 1 July 2021 and 30 June 2022;
- A total of 5,276.8 hectares treated;
- Average aerial treatment size for the 2021/22 season – 219.86 hectares;
- Largest individual treatment – 524.8 hectares;
- 33,642 kg of Barmac® BTI 200GR applied and;
- 7,866 kg of VectoPrime® FG applied.

### Mosquito Surveillance

Adult mosquito surveillance trapping provides vital data in relation to adult mosquito populations, species diversity, mosquito-borne disease detection and importantly evidence of the effectiveness of aerial treatments. The City completed twenty (20) trap runs in unison with the DoH Medical Entomology surveillance program. A total of two hundred (200) EVS (carbon dioxide baited) static traps were set, collected and sampled. These fortnightly trapping results also assist with providing communications and advice to the community.

**Figure 4.** below, details the trap counts of the two saltmarsh mosquito species that are the primary target of the program’s operations. As outlined, populations of *Aedes camptorhynchus* were elevated through September 2021 whilst populations of *Aedes vigilax* emerged in December 2021 and peaked significantly in late March 2022.

The impact of this increased abundance, resulted in mosquitoes dispersing into many residential areas including the coastal suburbs that typically do not experience high numbers of saltmarsh mosquitoes. This had an impact on outdoor amenity across the region and resulted in a sudden rise in community enquiries and complaints to all local governments across the region.

**Figure 4 - Saltmarsh mosquito abundance 2021/22.**

Source: WA Department of Health

Department of Health Southwest Arbovirus Surveillance – Ross River virus (RRV) and Barmah Forest virus (BFV)

Mosquito borne virus surveillance is also undertaken by the DoH Medical Entomology unit with the aim of identifying viruses from pools of mosquitoes trapped from the eight (8) Peel region locations along with fifteen (15) other trap locations southwards from Australind to Busselton. Upon detection of virus and when deemed appropriate, the DoH notifies local governments and issues media statements to the general public to warn and encourage residents and travellers to take precautions to avoid mosquito bites.

During the 2021/22 season, the DoH south west arbovirus surveillance program recorded four (4) RRV isolates within Mandurah and thirty-nine (39) BFV isolates.

The DoH issued two (2) media statements related to RRV and BFV isolations within the South West on the 23 September 2021 and 15 December 2021. The City utilised communications to the community encouraging personal protection measures which was maintained via social media posts throughout the season.

Notified mosquito-borne disease cases 2021/22

Human cases of mosquito borne disease are reported to the DoH Medical Entomology unit via GP and laboratory diagnosis. Notifications are then forwarded to local government officers for the purpose of following up case details and returned for data collation.

Season 2021/22 recorded slightly lower case numbers of RRV in Mandurah (42) when compared to season 2020/21 (47), and this was similar for the Peel region with 90 cases, down from 98. Despite the elevated number of BFV detections within local mosquito populations in the Mandurah area no human cases were reported even with the elevated virus activity and abundance of the *Aedes camptorynchus*.

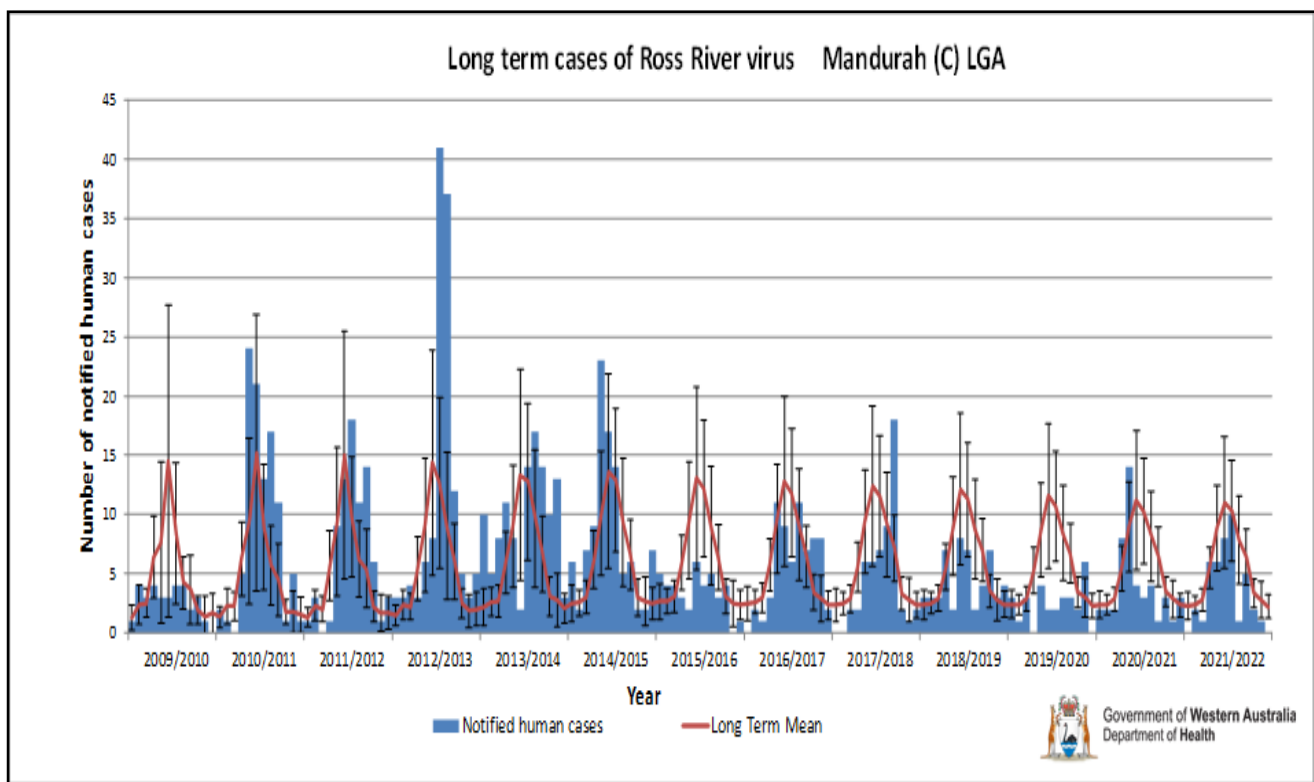

Continuous improvement to operational aspects of the program and ongoing education and engagement with the community will be important in minimising cases of RRV and BFV within Mandurah particularly when a high-risk season presents.

**Table 1 Mosquito-borne disease reported cases Mandurah**

Mandurah 2021/22 season		
Mosquito-borne Disease	No. Notified Cases	Long term average
RRV	39	67
BFV	0	3

Figure 5 & 6 provide the long term RRV case data for Mandurah and the Peel region.

**Figure 5 - Long term Ross River virus – Mandurah. Source: WA Department of Health**

**Figure 6 – Long term Ross River virus – Peel Region.**

Source: WA Department of Health

### Mosquito-borne disease health impacts

Mosquito-borne disease caused by RRV and BFV are both non-fatal however they can be very debilitating and negatively impact the quality of life of a person affected by either of the diseases.

People can only catch these viruses after being bitten by an infected mosquito. RRV and BFV cannot be caught from direct contact with another person or animal.

Common symptoms include:

- Joint Pain
- Muscle aches and pains
- Fever
- Lethargy or fatigue
- Rash
- Lymph node enlargements (RRV)
- Headaches (RRV)

The majority of people recover completely within 3 to 6 months however for some people symptoms may persist intermittently for a year or more.

### Community Engagement

COVID-19 impacted the number of community events opportunities through the 2021/22 season. One community event was delivered on 11 November 2021 at Osprey Waters reserve as part of the City's National Children's week celebrations.

The City continued to maintain communications via various channels throughout season to ensure residents were kept up to date on the program's activities and the important public health message of protecting themselves from mosquito bites and mosquito borne disease was sustained.

During the season the City provided three (3) email newsletters to subscribers with information on mosquito abundance, mosquito-borne disease and mosquito management activities. The email network of 520 subscribers included residents, schools, sporting clubs and community organisations.

The City also utilised its Facebook platform with a focus on keeping followers up to date with aerial treatment notifications and personal protection measures. Over the season the sixteen (16) posts achieved an average reach of 9,000 and recorded a 99.14% positive response.

Local radio messaging was again utilised between 23 September 2021 and 26 April 2022 with the timing of these radio alerts aimed to align with school holidays and the peak in outdoor, recreational, sporting and social activities.

97.3 Coast FM and 91.7 The Wave radio messaging schedule;

- 23 Sept - 10 Oct           Thurs - Sun - 16 spots
- 13 Dec - 9 Jan            Mon - Sun (first week) - Sat / Sun - 52 spots
- 31 Mar - 26 Apr           Thurs - Sunday - 54 spots

Despite the City's determined efforts to suppress mosquito populations consistently across the season, the City received one hundred and nine (109) mosquito complaints/enquiries with just over 50% of these received between 1 - 30 March 2022 and reflected the sharp spike in the abundance the vicious biting *Aedes vigilax* species.

Elected members were also provided with an update in early April to assist with responding to resident's concerns and requests for information.

Community feedback will continue to be considered when reviewing current communications practices to ensure we shape future messaging to effectively empower and educate the community on the drivers of mosquito breeding, the PMMG activities and personal actions that can be taken to minimise disease and nuisance risk.

### Outlook for season 2022/23

As predicted by international climate models including the Australian Bureau of Meteorology (BoM), a third La Niña event was confirmed as established by the BoM 13 September 2022 Climate Driver Update.

The 27 September update stated:

*"Models indicate the La Niña may peak during spring and return to neutral conditions early in 2023"*

The program is expecting that the environmental drivers of tidal inundation and the resulting frequency and intensity of saltmarsh mosquito reproduction will be persistent during spring and early summer.

The La Niña event will be closely monitored as the season progresses. As we have experienced in the past, these global events can change quickly as can the regional and local environmental conditions. For this reason, the City and PMMG must continue to remain operationally adaptable, utilise our well-developed resources and maintain access to existing and futures support from the DoH and their helicopter service provider.

## State Government partnership

Local government PMMG members have a long history of a positive partnership with the State Government to effectively manage mosquitoes in the Peel region. This partnership has been vital to reduce the risk of mosquito-borne disease within the community.

It is important to note that the predicted increase in mosquitoes as a result of the construction of the Dawesville Channel imbues the importance of the State Government's ongoing commitment to provide adequate resources to effectively manage mosquitoes.

In April 1994, the State Government opened the Dawesville Channel with the aim of improving the water quality of the Peel-Harvey Estuary system through increased tidal flushing.

*The Peel Inlet and Harvey Estuary Management Strategy - Environmental Review and Management Programme (Stage 2) - May 1988, stated;*

*'The Dawesville Channel would increase the available breeding area for mosquito larvae and worsen the existing severe nuisance and risk of disease (Ross River virus) associated with mosquito problems in the region. There would also be an increase in breeding opportunities for salt marsh species in some areas, due to the altered tidal regime. This would need further investigation following a commitment to build the Dawesville Channel with an emphasis placed on physical control and the regional application of pesticides to kill both adult mosquitoes and larvae. This is presently beyond the resources of the local authorities.'*

Whilst the opening of the Dawesville Channel achieved a number of the projects objectives, the impact of the Dawesville Channel on the tidal regime and subsequent increase in mosquito breeding is greater than predicted. It is important that the State Government contribute to the annual treatments as a result of the construction of the Dawesville Channel.

## **Consultation**

Nil

## **Statutory Environment**

Nil

## **Policy Implications**

Nil

## **Financial Implications**

Mosquito-borne diseases such as RRV and BFV are estimated to cost approximately \$5,000 per case in medical expenses and loss of earnings to those people that become infected. The number of cases in the City would greatly increase if there was no program in place to manage mosquito populations.

## **Risk Analysis**

The cost on the reputation and branding of Mandurah and the Peel region is difficult to assess, however the management of mosquitoes is a vital service in ensuring an acceptable level of amenity for residents and visitors.

The effective administration of the PMMG is essential to ensure the successful management of mosquitoes in the region. The group met on four occasions during the 2021/22 mosquito management season as well as attending regional meetings relating to mosquito management matters.

These meetings were attended either online or face to face by local government officers and elected members from each PMMG local government as well as representatives from the DoH. In addition, the meetings facilitate ongoing collaboration between the PMMG members to continuously identify and implement improvements within the program.

Examples of key discussions during 2021/22 include:

- Season updates;
- Mosquito abundance, human case and disease isolation updates;
- Local government reports on mosquito breeding, treatments and complaint investigation;
- Climate and environmental condition updates;
- Helicopter operations and application equipment updates;
- Budget updates;
- OSH updates;
- Public engagement strategies; and
- Emerging technologies and research.

A total of \$255,658.65 was budgeted for season 2021/22 by the PMMG with \$251,912.29 allocated for the procurement of larvicides in addition to carryover larvicide stock from season 2020/21.

The 2021/22 PMMG budget did anticipate the potential impacts a second season influenced by La Niña, however, the increased expenditure due to a number of unforeseen factors resulted in the allocated larviciding funds being used quicker than anticipated.

The City of Mandurah, Shire of Murray and City of Rockingham and DoH responded with an additional sum of \$112,730.43. The 2021/22 financial contributions made by PMMG members and the DoH are outlined in **Table 2** (in this report).

By the end of season 2021/22, a total of \$388,907.86 had been expended by the PMMG with \$387,552.00 consumed on larvicides purchases.

DoH is currently undertaking a review of the CLAG funding scheme as a result of operational changes and increases in the number of local governments seeking funding from the DoH.

It is essential that this review recognises the critical importance of effective mosquito management to the Peel Region and the funding stream be adaptable to forecast seasons of high mosquito activity. Ongoing improvement has been made to the PMMG program, in particular through the availability of additional larviciding products. These products have led to better capability to minimise the impact on the community in La Niña seasons. The additional larvicides come at a higher cost and the budget of the DoH must be increased to reflect these changes rather than seeking ad-hoc seasonal adjustments.

In addition to the allocation for larvicide costs, the City of Mandurah contributed an estimated \$275,000 in labour, vehicles, equipment and resources for public education during the 2021/22 season.

All costs associated with helicopter services are provided by the DoH across the southwest with the Peel region being the primary user. Without the DoH's commitment to these costs the PMMG would require a substantial increase in the PMMG budget to provide the same level of helicopter services.

**Table 2 - PMMG budget and additional contributions - 2021/22 (Ex GST)**

<b>PMMG Member</b>	<b>2021/22 Budget Contribution</b>	<b>2021/22 Additional funding (includes 2021/22 Trust funds)</b>	<b>Total 2021/22 funding</b>
<b>Department of Health</b>	\$128,154	\$35,000	\$163,154
<b>City of Mandurah</b>	\$70,011	\$61,551	\$131,562
<b>Shire of Murray</b>	\$41,248	\$36,976	\$78,223
<b>Shire of Waroona (admin fee)</b>	\$909	N/A	\$909
<b>City of Rockingham</b>	\$15,845	\$14,204	\$30,049
<b>2020/21 Carry over</b>	\$401	-	\$401
<b>Total</b>	<b>\$256,568</b>	<b>\$147,731</b>	<b>\$404,298</b>

The approved budget for 2022/23 is outlined in **Table 3** below noting that the total figure of \$367,925 does not include the value of carryover larvicide stock of \$88,670.

The budget for 2022/23 has been prepared on the prediction of a third season influenced by La Niña along with the total treatment area, number of and size of aerial treatments completed during season 2021/22. The budget along with current larvicide stocks is expected to provide a treatment area of around 6,000 hectares.

**Table 3 – Approved PMMG budget funding – 2022/23 (ex GST, unless otherwise stated)**

Description	Total amount proposed for 22/23	Approved	Requested amount	DoH Contribution (50% of requested) – Actual Amount Approved
Chemicals	\$364,625	Yes	\$182,312	\$182,312
Less carryover funds not spent in 21/22				(\$7,214)
Final DoH contribution				\$175,098
<b>PMMG member contribution breakdown</b>				
Department of Health				\$175,098
City of Mandurah				\$95,604
Shire of Murray				\$57,432
Shire of Waroona (Administration fee only - excluded from budget)				\$909
City of Rockingham				\$22,062
CLAG contribution for 22/23 to Trust Account (this amount is an additional contribution for all Peel CLAG members in addition to the amounts above – each local government has a percentage allocated based on breeding area and other criteria set in out in the CLAG agreement)				\$18,231

### Strategic Implications

The following strategies from the City of Mandurah Strategic Community Plan 2020 – 2040 are relevant to this report:

#### Social:

- Provide a range of social, recreational and cultural experiences for our residents and visitors to enjoy and take pride in.

#### Health:

- Facilitate and partner with key service providers including State and Federal Government to ensure health outcomes are aligned with community needs and expectations.
- Advocate for and facilitate the provision of a technologically advanced, quality health care system in Mandurah.
- Provide quality health and wellbeing programmes and services that target whole of life health from infants to seniors.
- Promote the importance of a healthy, active lifestyle and the role the natural environment plays in preventative health, within our community.

#### Organisational Excellence:

- Demonstrate regional leadership and advocate for the needs of our community.
- Listen to and engage with our community in the decision-making process.

## **Conclusion**

Throughout the 2021/22 season, the program was confronted with consistent tidal inundation events and continual larval cohort hatching that required intensive field work to ensure aerial treatments were well timed, precise and effective.

Whilst there was community frustration with mosquito numbers, the program produced positive outcomes by reducing the potential human cases of mosquito borne disease and minimising mosquito abundance.

Given the establishment of third season influenced by La Niña the program anticipates the first half of season 2022/23 will be challenging once again and will require a decisive response to mitigate mosquito borne disease and the detrimental impact on the community from elevated mosquito populations.

Recognising this outlook, the PMMG has planned the 2022/23 budget to ensure adequate funding is provided by the DoH and the PMMG local government members.

NOTE: *Subject to Council's consent, the City's Senior Mosquito Management Officer will make a presentation on this item at the meeting.*

## **RECOMMENDATION**

**That Council:**

- 1. Receives the City of Mandurah Mosquito Management Program: 2021/22 Annual Report.**
- 2. Approves the distribution of these reports to the following key stakeholders:**
  - **Residents of the City of Mandurah via access at Administration Centre and Library, website and media releases;**
  - **Department of Health;**
  - **The Minister for Health and local Parliamentary Representatives;**
  - **Peel Mosquito Management Group member local governments**
  - **Peel Development Commission;**
  - **Department of Water Environment and Regulation;**
  - **Residents and Progress Associations; and**
  - **Mandurah Environmental Advisory Group.**
- 3. Notes the City's support for the Department of Health Fight the Bite Campaign.**
- 4. Acknowledges the ongoing support provided by the Department of Health in the implementation of improvements in the Peel Mosquito Management Program.**
- 5. Supports ongoing efforts to maintain the programs existing aerial larviciding capacity and acknowledges the requirement for the approved funding of \$367,924.56.**
- 6. Acknowledges the need for improvements as they arise including the ongoing provision of winter treatments**
- 7. Acknowledges the importance of the State Government's ongoing commitment to the annual programs, and in accordance with the Dawesville Channel Environmental Review and Management Program.**
- 8. Supports the Mayor and City Officers involvement in the review of the current CLAG funding model to ensure that adequate funding is available to effectively manage mosquitoes during seasonal variations.**

## Summary

In 2019, the City was provided funding from the State Government to part fund the construction a beach enclosure to safeguard swimmers from sharks. After an engagement process, the City sought approval from the State Government to divert the funds to beach patrols instead and this request was approved. At its meeting on 17 December 2019, Council resolved to accept the tender submission from Surf Life Saving Western Australia Incorporated for the provision of beach patrol services at four beach locations within Mandurah for three consecutive years.

The provision of the beach patrol services was for a trial period of three years which ended on 30 June 2022. City officers have undertaken a review of the beach patrol service based upon final reports provided by Surf Life Saving Western Australia after each season of the three year trial. Overall, it is considered the patrols generated limited value and the funds could be allocated to initiatives that assist residents make informed choices about beach safety, build capacity of clubs, and leverage existing efforts by the State Government for greater local impact.

Council is requested to note the results of the three-year trial of the Beach Patrol Service, acknowledge the funding from Department of Primary Industries & Regional Development has ended, and support funding an alternative to beach patrols.

## Disclosure of Interest

Nil

## Location(s)

Pyramids Beach Dawesville, San Remo Beach, Falcon Bay Falcon and Town Beach Mandurah.

## Previous Relevant Documentation

- G.7/8/21      24 August 2021      Council noted the results of the second season of the City's Beach Patrol Service and acknowledge that the patrol schedule for the 2021/22 season will commence on 18 December 2021.
- G.38/07/20    28 July 2020        Council noted the results of the first season of the City's Beach Patrol Service and acknowledge that the patrol schedule for the 2020/21 season will commence on 21 December 2020.
- G.38/12/19    December 2019      Council endorsed to accept Surf Lifesaving Western Australia Incorporated as the preferred tenderer for Tender 19-2019 for the Beach Patrol Services for a period of three years at the lump sum price of \$558,329.42 and the schedule of rates tendered for the additional services.
- SP.4/11/19    November 2019      Council declined all tenders for Tender T15-2019 Lifeguard Services and authorised the advertising of a tender for the provision of a beach patrol service for three years 2019/20, 2020/21 and 2021/22 at Pyramids, Falcon Bay, Town and San Remo/Madora beaches, acknowledging that year 1 (2019/20) will be a part-service building to a full service by 2020/21.

- G.10/8/19 August 2019 Council authorised the advertising of a tender for the provision of a beach patrol service for the years 2019/20 to 2021/22 at Pyramids, Falcon Bay, Town and San Remo/Madora beaches.
- G.34/3/19 March 2019 Council endorsed the City to write to the Minister for Fisheries requesting consideration for the grant funding to be reallocated for the purpose of supporting a beach patrol service.
- G.27/12/17 December 2017 Council endorsed the consultation plan for the proposed Falcon Bay Shark Barrier.
- G.13/8/17 August 2017 Council considered an interim report on the possible implementation of a Shark Barrier in Falcon Bay.

## Background

In May 2019, the City sought approval from the State Government to reallocate its grant funding for the installation of a beach enclosure at Falcon Bay, to support a trial for a new beach patrol service within the City of Mandurah. The beach patrol service involved the delivery of a contracted lifeguard and patrol service at four beach locations within the City for three consecutive years.

In June 2019, the request was approved and \$287,000 grant funding was reallocated, as a one-off contribution to support beach patrols at Pyramids Beach, Falcon Bay, Town Beach and San Remo/Madora Beach for a trial period of three years.

In December 2019, Surf Life Saving Western Australia Incorporated (SLSWA) was appointed as the preferred tenderer for the beach patrol service for the duration of the trial. A grant agreement between the City of Mandurah and the Department Primary Industries and Regional Development for the State Government's contribution of \$287,000 towards the beach patrol service trial was signed.

In 2019/20 the beach patrol service operated Monday to Saturday from the second last week in December to 31 January and then Saturdays only from 1 February to the end March. In addition, the service operated over the Easter period from Good Friday to Easter Monday inclusive from four locations, Falcon Bay, Pyramids Beach, Town Beach and San Remo.

In August 2021, SLSWA provided a recommendation to remove San Remo beach from the patrol service for 2021/22 due to low beach attendance, and patrol hours were diverted to align with beach attendance trends at Falcon Bay and Town Beach.

Season three of the beach patrol service commenced on 18 December 2021 and was completed at the conclusion of the Easter 2022 period, at the below locations:

- Pyramids Beach Dawesville
- Falcon Bay Falcon
- Town Beach Mandurah

During the three-year trial, and operating under a Service Agreement with the City of Mandurah, Port Bouvard and Mandurah Surf Life Saving Clubs actively participated in voluntary lifeguard activities on Sundays and some public holidays. Under this agreement, the City provides an annual financial contribution to each club towards the cost of combined voluntary hours undertaken in the peak season.

## Comment

The contract agreement between the City of Mandurah and Surf Lifesaving Western Australia outlined specific annual reporting requirements for the beach patrol trial. In addition, the Department Primary Industries and Regional Development grant agreement has Key Performance Indicators.

Table One presents a combination of statistics from operational reports provided by Surf Lifesaving Western Australia across the three-year trial.

Table 1 – Key statistics reported by SLSWA from the 3-year trial

Information	2019/20	2020/21	2021/22
Service Delivery hours	403	777.5	829
Rescues <ul style="list-style-type: none"> <li>In 21/22, 1 rescue at Falcon Bay and 1 rescue at Pyramids Beach</li> <li>In 20/21, 4 rescues at Town Beach and 7 rescues at Falcon Bay.</li> <li>Specific information about the nature or severity of the rescue not provided.</li> </ul>	0	11	2
Beach closures <ul style="list-style-type: none"> <li>due to shark sighting at Falcon Bay</li> </ul>	0	0	1
Beach Users across the sites <ul style="list-style-type: none"> <li>These attendance numbers include beach users in the water, out of the water and using water-based craft.</li> </ul>	710	883	1068
Preventative Actions <ul style="list-style-type: none"> <li>Where a lifeguard identifies a potentially dangerous situation and takes precautionary action to prevent the situation from developing into or contributing in to a real emergency, for example: Shifting the flagged area due to a change in conditions; Preventing swimmers from entering a rip; Removing or isolating broken glass of other hazards from the beach; Checking on swimmers who may appear to be in difficulty; Clearing the beach of swimmers of a suspected shark sighting; Moving on board riders out of the flagged area.</li> <li>The City was not provided with specific details on the nature of preventative actions.</li> </ul>	22	222	1524
Minor First Aid incident <ul style="list-style-type: none"> <li>Any incident where a person is administered some form of minor medical treatment such as minor cut, bluebottle sting, minor strain or sprains.</li> </ul>	1	79	24
Major First Aid Incident <ul style="list-style-type: none"> <li>Any incident where a person requires a higher level of medical intervention and results in the necessity for further medical treatment or is handed to another agency (Ambulance, doctor...)</li> </ul>	1	1	5
Incidents speaking to dog owners <ul style="list-style-type: none"> <li>Such as picking up after the dog</li> </ul>	19	71	151
Incidents speaking to users regarding littering <ul style="list-style-type: none"> <li>Such as asking owners to dispose of litter in a bin</li> </ul>	125	244	287
Surf Craft interactions <ul style="list-style-type: none"> <li>These occurred mostly at Pyramids Beach and Falcon Bay and typically relate to surfers surfing between the flags.</li> </ul>	7	79	170

\*please refer to table 2 for beach attendance breakdown

Specific details relating to the nature, severity, day or time of incidents is not included in the SLWA reports. It's difficult to determine trends for any beach user data over the past 3 years due to the pandemic and the impact it has had regarding usual behaviours for beach recreation and tourism.

Table 2 - Average Daily Beach Attendees: Statistics provided by Surf Life Saving WA

Daily Beach Users	Town Beach	San Remo	Falcon Bay	Pyramids
2019/2020	248	130	155	177
2020/2021	379	67	274	163
2021/2022	498	N/A	308	262

Reports provided by Surf Lifesaving WA indicate that in 2021/2022 season, 36% of beach attendees entered the water for swimming, 13% entered the water on surf craft and 51% of beach attendees did not enter the water (note - there was not a breakdown provided of percentages by location).

Surf Lifesaving Australia has ratings and classifications for beaches available on the beachsafe website for the purpose of providing a general hazard/risk rating that can inform swimmers of beach suitability. The rating indicates the level of danger posed with 1/10 being very low risk, and 10/10 being very high risk. The three local beaches within the beach patrol service have the following General Hazard Ratings:

- Town Beach – 2/10 classified “least hazardous” due to calm water, small waves and shoreline protected by groynes or seawalls.
- Falcon Bay - 3/10 low hazard due to reefs off the point and further out lower waves.
- Pyramids Beach – 5/10 classified as “moderately hazardous” due to a beach rock section and various rips, especially in the northern section.

Table 3 presents the number of local residents who were employed to fill Lifeguard positions from the City of Mandurah, and these residents were also active members of Mandurah Surf Lifesaving Club and Port Bouvard Surf Lifesaving Club. The remainder of the requirement was fulfilled by staff mobilised from outside the City of Mandurah.

Table 3: Local Employment; *Statistics provided by Surf Life Saving WA*

	2019/2020	2020/2021	2021/2022
City of Mandurah residents	4	8	7
Non-City of Mandurah residents	unknown	unknown	5

Each patrol area was required to have two staff on duty during the specified patrol hours and the beach patrol service operated under the following scope:

- 10 Days prior to Christmas and daily to end January
- February / March Saturdays only
- Easter daily long weekend daily

Hours:

- 8.00am to 12.00pm: Pyramids Beach (generally, swimming activity markedly reduces when the sea breeze arrives).
- 8.00am to 2pm Town: Beach and Falcon Bay
- Please note, in 2021/22 San Remo was removed from the patrols schedule.

Table 3 – Cost per year during the trial

Year	City of Mandurah	State Gov’t Grant	Total Fee
2019 / 20	\$125,000	\$95,666	\$220,666
2020 / 21	\$125,000	\$95,666	\$220,666
2021 / 22	\$125,000	\$95,666	\$220,666
<b>Total</b>	<b>\$375,000</b>	<b>\$286,998</b>	<b>\$661,998</b>

The beach patrol service encountered a number of challenges in year three largely due to a diminished number and availability of Lifeguards. As a consequence, Surf Lifesaving WA were not available to facilitate additional shifts when the local clubs could not fulfil their voluntary patrol commitment. The City of Mandurah had to engage a third-party contractor, West Coast Water Supply, to cover patrol services over the Christmas period at Pyramids Beach. Port Bouvard Surf Lifesaving Club also notified the City that they were unable to continue with the Sunday patrols at Falcon Bay which Surf Lifesaving WA managed to cover by utilising Junior Lifeguards under senior supervision.

The State Government has an extensive Shark Mitigation Strategy which has grown considerably since the beginning of the beach patrols trial. The Strategy has four key pillars, including:

- Safeguarding the community: surveillance such as helicopter that extends to Port Bouvard, jet skis and event support to assist evacuations when a shark is sighted; Personal shark deterrents for surfers and divers; and a shark deterrent rebate providing Western Australians with a \$200 subsidy on scientifically proven personal shark deterrent devices; and Surfing WA partnership which includes a shark mitigation partnership with Surfing WA to provide drones for event patrols, as well as free first-aid training that is tailored specifically for surfers.
- Rapid and Effective Response: with initiatives such as the: Shark Response Unit; Beach Emergency Number (BEN) signs; Legislative ban on shark cage diving for tourism; and whale carcass management.
- Science and Research: Extended shark monitoring network; Shark tagging; Scientific non-lethal SMART drumline trial; and a seven-year shark monitoring research program on movements of white sharks off the Western Australian coast.
- Delivering accurate and consistent near real time information to water users on shark mitigation: SharkSmart website; SharkSmart WA app; Integrated shark notification and response system; and Sea Sense campaign.

Surf Life Saving WA has extensive information that is publicly available to assist people interact with water safely including: BeachSafe App; interactive map showing nearest patrolled beaches; series of coastal fact sheets (such as how to respond to rips, first aid required due to marine creatures, tips for safe rock fishing and more); posters; and publications.

## Consultation

City Officers have been in contact with the Department of Primary Industries & Regional Development who have advised the grant accessed to fund the beach patrols originally is no longer available.

Meetings were held with the Presidents of Port Bouvard Surf Life Saving Club and Mandurah Surf Life Saving Clubs in September 2022 in order to inform options for the future. Both clubs had similar comments:

- The focus of surf lifesaving clubs is very broad, including: Nippers, Education, Lifesaving and surf sports.
- A promotional campaign to increase Nippers participants won't necessarily result in increased numbers of qualified lifeguards.
- A promotional campaign would be beneficial to assist communicate important information to beachgoers, such as when certain beaches are patrolled.
- Extending beach patrols holds limited value because Mandurah has such a long coastline where beachgoers like to spread out, rather than concentrate in areas to swim between the flags.
- Securing volunteers with the correct qualifications for regular patrols is difficult. Even if more life guards with a gold medallion qualification could be sourced, the clubs are run by volunteers and don't have the capacity to increase service levels.
- It's unlikely that volunteer numbers will increase to enable the clubs to undertaken additional hours.
- Drone technology could help the clubs to patrol larger areas for prevention and response actions. Port Bouvard has one, and could use more. Mandurah Surf Club is not on the roll-out list to receive a drone from SLWA for several years.
- The clubs could potentially patrol extended beaches if additional storage could be constructed to hold ATV's or watercraft. For example, Mandurah Surf Life Saving Club are unable to get an ATV to Town Beach because it is not licenced for the road, and the groynes render it impossible to drive along the beach. Storage at Town Beach would make access easier and more efficient that placing the ATV on a trailer and driving it down.

## Statutory Environment

It is not a legislative requirement for local government to provide beach patrols.

## Policy Implications

Nil.

## Financial Implications

The 2022/2023 annual operating budget includes \$10,000 each for Port Bouvard Surf Life Saving Club and Mandurah Surf Life Saving Clubs for continuation of existing direct support to the clubs.

The 2022/2023 adopted budget for the Surf Lifesaving Beach Support in relation to beach patrols is \$50,000 per year, continued annually throughout the Long Term Financial Plan. Continuation of the beach patrol service level as per the trial would cost the City of Mandurah \$230,000 per year, increasing annually for CPI. This is \$190,000 above funds currently budgeted.

The City officers propose to fund the two local Surf Life Saving Clubs for initiatives that would help build their capacity to patrol additional beaches effectively where practicable through the existing funds allocated in the Long Term Financial Plan. Examples of suitable initiatives described by clubs include drone technology and additional storage for vehicles. These would have financial implications for capital and potentially associated operational costs.

A communication plan up to \$10,000 would support messaging relating to local information (such as times and locations of volunteer beach patrols) as well as information from the State Government or SLSWA such as initiatives within the Shark Mitigation Strategy, SeaSense campaign or Coastal Safety Fact Sheets.

## Risk Analysis

The Beach Patrol Service aims to assist beach users to make informed decisions about entering the water and provide assistance, generally, to members of the public. The community who access Mandurah's beaches continue to have a responsibility to make informed decisions about safe beach access. The service cannot, nor does it aim to, address all risks associated with beach use.

The current voluntary patrols by surf life-saving clubs allow beach users to access the beach on Sundays. Less confident swimmers may prefer the MARC which has higher supervision and monitored conditions.

Entering the water in a natural beach environment brings inherent risks. The data from the three-year trial suggests the risk is relatively low. This was validated anecdotally after discussions with both local clubs.

The State Government has increased its Shark Mitigation Strategy since the beach patrol trial started, which enables the public to be more informed about safety, for example with shark deterrent rebates, apps, websites, BEN signs and more.

There is a financial risk to the City (budget deficit) if there is an appetite to continue with patrols as per the pilot, but external funding is not secured.

## Strategic Implications

The following strategies from the *City of Mandurah Strategic Community Plan 2020 – 2040* are relevant to this report:

### Social:

- Provide a range of social, recreational and cultural experiences for our residents and visitors to enjoy and take pride in.

- Advocate for and facilitate the provision of diverse and environmentally sustainable places and spaces for people to enjoy an inclusive and active lifestyle.

Health:

- Promote the importance of a healthy, active lifestyle and the role the natural environment plays in preventative health, within our community.

Organisational Excellence:

- Ensure the City has the capacity and capability to deliver quality services and facilities through accountable and transparent business practices, governance, risk and financial management.
- Ensure that our actions maintain a sustainable balance between economic growth, the environment and social values.

## Conclusion

The Beach Patrol Service was implemented by the City and supplied by Surf Lifesaving Western Australia for the past three years, consistent with the funding agreement. Surf Lifesaving Western Australia provided operational reports annually that provided key statistics and information.

Based on the data provided through the trial, the continuation of the beach patrols pilot is not supported. The number of reported incidents during the trial that required intervention was low, with the majority of interactions by life guards during the trial being for citizenship matters such as public relations, litter and dogs rather than beach safety incidents. Surf Lifesaving Australia hazard ratings for Town Beach and Falcon Bay are classified 'least hazardous' and Surf Lifesaving Australia rating for Pyramids Beach is 'low/medium'.

The proposal to increase the capacity of local surf lifesaving clubs with by exploring initiatives such as drones or storage is considered the most sustainable and practical way forward. A promotional campaign to help Mandurah residents make informed choices about their beach safety is also considered meaningful.

## RECOMMENDATION

**That Council:**

- 1. Note the results of the 3-year Beach Patrol trial carried out by Surf Lifesaving WA;**
- 2. Note that the 3-year trial funding from the Department of Primary Industries & Regional Development has ended and the acquittal has been completed;**
- 3. Discontinue funding additional beach patrols;**
- 4. Explore options to enhance beach patrols by building capacity of Port Bouvard Surf Life Saving Club and Mandurah Surf Life Saving Clubs with initiatives to be presented back to Council by August 2023 and funded through the Long Term Financial Plan;**
- 5. Prepare a Mandurah Beach Safe communication strategy to assist people using Mandurah beaches to make safe and informed choices, to a maximum of \$10,000 funded through the Long Term Financial Plan.**

#### Financial Summary

The financial report for September 2022 shows an actual surplus for this period of \$89.95 million. The reason why the first six months of any financial year has a large surplus is because over 80% of the total revenue has been recognised (from raising of rates and fees and charges), however most of the City's expenditure occurs evenly over the 12 months. This results in a timing variance and the actual surplus reduces as the financial year progresses.

The opening surplus is currently \$5.2 million. The actual opening surplus at 30 June 2022 will not be finalised until December 2022. Over the next few months, the actual opening surplus will change until such time as the Audit Report and the 2021/22 Annual Financial Statements are adopted by Council. The reduction in the actual opening surplus can be due to adjustments being made in accordance with the Accounting Standards or funds being required to be carried forward to the 2022/2023 financial year to enable the City to complete projects from the previous year.

A summary of the financial position for September 2022 is detailed in the table below:

	Current Budget	YTD Budget (a)	YTD Actual (b)	Var. (b)-(a)	Var.% (b)-(a)/(a)
	\$ 000s	\$ 000s	\$ 000s	\$ 000s	%
<b>Opening Funding Surplus / (Deficit)</b>	<b>600</b>	<b>600</b>	<b>5,215</b>	<b>4,615</b>	<b>769%</b>
<b>Revenue</b>

## Statutory Environment

*Local Government Act 1995* Section 6.4 Financial Report  
*Local Government (Financial Management) Regulations 1996* Part 4 Financial Reports

## Policy Implications

Nil

## Financial Implications

Any material variances that have an impact on the outcome of the budgeted surplus position are explained in the Monthly Financial Report, as detailed in Attachment 3.1.

## Risk Analysis

Nil

## Strategic Implications

The following strategy from the City of Mandurah Strategic Community Plan 2020 – 2040 is relevant to this report:

### Organisational Excellence:

- Ensure the City has the capacity and capability to deliver quality services and facilities through accountable and transparent business practices.

## 2022/23 Budget Variations

### Mandurah Aquatic and Recreation Centre (MARC) Additional CCTV's

The CCTV system installed at the MARC is utilised to provide security to both patrons and staff, mainly within the Centre. Over the last few years there has been an increase in undesirable behaviour around the MARC. Additional CCTV to the exterior of the MARC would provide greater security to both the community and staff that use the facility from early hours of the morning, to late at night, throughout the year. During 2021/2022 the MARC had 878,529 attendees. Quotes to supply and install the additional CCTV's have been obtained at an approximate cost of \$30,000.

The increased safety concerns at the MARC have prioritised the additional CCTV project requirements, therefore it is proposed that the following 2022/23 MARC capital projects budgets be amended to enable completion of this new project. The scope of the MARC Sauna Expansion and Refurbishment project has been reduced to a refurbishment only, therefore it is recommended that this budget be reduced by \$20,000 from \$48,742 to \$28,742, to enable \$20,000 to be transferred to the new MARC Additional CCTV capital project. The MARC Replacement Pool Inflatable project will no longer be acquired this financial year; therefore, it is recommended that the budget of \$12,506 be transferred to the new CCTV project. These budget reductions will enable a new budget of \$32,506 to be established to complete the MARC Additional CCTV capital project.

### Sofffall Replacement Program

The 2022/23 capital works program includes soffit replacement budgets for both Lilac Park in Seascapes (\$12,889) and Greenhouse Park in Mandurah (\$10,851). The quotes obtained for these works have come back higher than anticipated with additional funds of approximately \$12,000 and \$4,000 required for Lilac Park and Greenhouse Park respectively. The contractor who undertakes this work has identified that the soffit at Seascapes Village still meets standards as it has little damage and wear. The contractor has advised it can be utilised for 2-3 years before it doesn't meet standards. Seascapes Village Soffit Replacement capital project has a budget of \$16,389 in 2022/23, therefore it is proposed that the increase in budget for Lilac Park and Greenhouse Park Soffit Replacement capital projects be funded from the Seascapes Village Soffit Replacement budget with \$12,389 allocated to Lilac Park and the remaining \$4,000 allocated to Greenhouse Park.

### Rushton Park Stadium – External Painting and Walls

The Rushton Park Stadium – External Painting and Walls capital project has a current budget of \$35,209, however quotes obtained to complete these works have come back higher than anticipated with an additional \$26,000 required. It is proposed that the additional budget required be funded from the Install of Emergency Door – Shower Service capital project. The works required to complete this project were less than originally scoped resulting in a forecasted underspend. It is recommended that this budget be reduced by \$26,000 from \$52,423 to \$26,423 to enable completion of the external painting works at Rushton Park Stadium.

### CityFleet

The purchase of the second part to the Grader Trim Control machine originally formed part of the Miscellaneous Equipment budget in 2021/22. Due to supply issues, the budget of \$78,000 for the purchase of this machine was carried over to 2022/23 as part of the total \$324,315 Miscellaneous Equipment carryover budget, however over this extended period, the price has increased resulting in an additional \$20,000 being required to complete the purchase.

It is proposed that this additional \$20,000 be funded from the New - Vehicle and Small Plant Program. A budget of \$20,000 was included in this 2022/23 program for the purchase of a Playground Sand Cleaning machine, however it has been determined that an additional sand cleaning machine is no longer required.

### MPAC Fly Tower and Auditorium Façade Cladding and Roof

The MPAC is now over 25 years old and the fly tower and auditorium façade cladding and roof are at the end of their functional life, resulting in significant water leaks during rainfall events. Renewal of this part of the building is now urgent and funding in the amount of \$100,000 is needed to engage a consultant to complete the necessary design and cost estimation services for the renewal works. It is proposed that the \$100,000 budget would be allocated from the Other Buildings Renewal project which has a current budget of \$246,000. This project was included in the 2022/23 capital works program to fund adhoc renewal projects that arose throughout the year.

### Adventure Golf Australia

At the Council Meeting of 22 June 2021, Council approved the holding over period for the portion of Reserve 27581 for 'King Carnival', Leighton Place, Halls Head, for Adventure Golf Australia Pty Ltd, trading as King Carnival up until 30 November 2022. The City is currently undertaking an Expression of Interest (EOI) process for the Western Foreshore Commercial space, of which is currently occupied by Adventure Golf Australia Pty Ltd under a Lease with the City. Stage Two of the EOI will likely be presented to Council by the end of the year and following this, the City may be required to undertake statutory processes as required under the *Land Administration Act 1997* and the *Planning and Development Act 2005*.

It is therefore recommended that the City extends the holding over period to enable Adventure Golf Australia Pty Ltd to continue to operate under the current Lease. As the length of time required to undertake the relevant statutory processes is unknown, it is recommended that Council authorise the Chief Executive Officer to determine the length of time for the holding over period and communicate with Adventure Golf Australia Pty Ltd accordingly. The annual rent paid to the City by Adventure Golf Australia Pty Ltd is

\$22,544.00 per annum (exclusive of GST), with CPI applied for the period of holding over. This rent is already included in the 2022/23 annual budget.

## Conclusion

The City strives to manage its finances adequately and maintain expenditure within budget to ensure services that have been approved through the budget process are fully funded.

It is recommended that Council receive the Monthly Financial Report and the Schedule of Accounts.

### NOTE:

- Refer **Attachment 3.1** **Monthly Financial Report**  
**Attachment 3.2** **Schedule of Accounts (electronic only)**

## RECOMMENDATION

### That Council

- 1 Receives the Financial Report for September 2022 as detailed in Attachment 3.1 of the report.
- 2 Receives the Schedule of Accounts for the following amounts as detailed in Attachment 3.2 of the report:

Total Municipal Fund	\$	12,012,756.87
Total Trust Fund	\$	<u>0.00</u>
	\$	<u>12,012,756.87</u>
- 3 Approves the following budget variations for 2022/23 annual budget:
  - 3.1 Unbudgeted capital expenditure of \$32,506\* for MARC Additional CCTV's
    - To be funded from MARC Sauna Expansion and Refurbishment capital budget \$20,000\*
    - To be funded from MARC Replacement Pool Inflatable capital budget \$12,506\*
  - 3.2 Increase in capital expenditure of \$12,389 for Lilac Park Softfall Replacement  
Increase in capital expenditure of 4,000\* for Greenhouse Park Softfall Replacement
    - Both softfall budget increases are to be funded from Seascapes Village Softfall Replacement capital budget \$16,389\*
  - 3.3 Increase in capital expenditure of \$26,000 for Rushton Park Stadium – External Painting and Walls
    - To be funded from Install of Emergency Door – Shower Service capital budget \$26,000\*
  - 3.4 Increase in capital expenditure of \$20,000\* for New - Vehicle and Small Plant Program Miscellaneous Equipment
    - To be funded from New – Vehicle and Small Plant Program capital budget \$20,000\*
  - 3.5 Unbudgeted capital expenditure of \$100,000\* for MPAC Fly Tower and Auditorium Facade Cladding and Roof
    - To be funded from Other Buildings Renewal capital budget \$100,000\*
- 4 Authorise the Chief Executive Officer to extend the period of holding over to the Lease with Adventure Golf Australia Pty Ltd trading as Kings Carnival, for a period of time to be determined by the Chief Executive Officer and note following the holding over period, Adventure Gold Australia Pty Ltd, must remove all buildings, improvements and fixtures on the leased area and restore the leased area to the same condition as it was immediately prior to the construction of the buildings, improvements and fixtures.

KEY INFORMATION

▲▼ Indicates a variance between Year to Date (YTD) Actual and YTD Budget data as per the adopted materiality threshold.

Refer to Note 13 for an explanation of the reasons for the variance.

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

(a) Non-cash items excluded from operating activities

The following non-cash revenue and expenditure has been excluded from operating activities within the Statement of Financial Activity in accordance with Local Government (Financial Management) Regulation 1996.

Notes	Annual Budget	YTD Budget (a)	YTD Actual (b)
<b>Non-cash items excluded from operating activities</b>			
	\$	\$	\$
<b>Adjustments to operating activities</b>			
Movement in liabilities associated with restricted cash	(40,000)	-	24,800
Movement in pensioner deferred rates (non-current)	-	-	(44,658)
Movement in employee benefit provisions (non-current)	-	-	(268,905)
Add: Loss on asset disposals	4	-	(5,334)
Add: Loss on asset write offs	-	-	0
Add: Depreciation on assets	30,575,421	7,726,905	7,712,463
<b>Total non-cash items excluded from operating activities</b>	<b>30,535,421</b>	<b>7,726,905</b>	<b>7,418,366</b>

(b) Non-cash items excluded from investing activities

The following non-cash revenue and expenditure has been excluded from investing activities within the Statement of Financial Activity in accordance with Financial Management Regulation 32.

<b>Adjustments to investing activities</b>			
Movement in non current liabilities for transfers to acquire or construct non-financial assets to be controlled by the entity			
Movement in current liabilities for transfers to acquire or construct non-financial assets to be controlled by the entity associated with restricted cash	(5,277,120)	-	4,039,880
<b>Total non-cash amounts excluded from investing activities</b>	<b>(5,277,120)</b>	<b>-</b>	<b>4,039,880</b>

(c) Adjustments to net current assets in the Statement of Financial Activity

The following current assets and liabilities have been excluded from the net current assets used in the Statement of Financial Activity in accordance with regulation 32 of the Local Government (Financial Management) Regulations 1996 to agree to the surplus/(deficit) after imposition of general rates.

	Budget Closing 30 Jun 2022	Budget Closing 30 Jun 2023	Year to Date 30 Sep 2022
<b>Adjustments to net current assets</b>			
Less: Reserves - restricted cash	(24,888,945)	(31,689,865)	(49,972,354)
Less: Unspent loans	(207,137)	(295,779)	(3,470,667)
Less: Other receivables	(80,000)	-	(28,323)
Less: Prepaid Rates	-	-	-
Add: Borrowings	7	9,826,754	4,158,994
Add: Other liabilities	3,417,743	1,115,424	9,609,335
Add: Lease liability	759,243	-	283,697
Add: Provisions - employee	5,216,724	4,206,636	4,817,128
Add: Loan Facility offset	-	-	11,000,000
<b>Total adjustments to net current assets</b>	<b>(5,955,618)</b>	<b>(22,504,590)</b>	<b>(24,434,197)</b>

<b>Less: Total adjustments to net current assets</b>	<b>1(c)</b>	<b>(5,955,618)</b>	<b>(22,504,590)</b>	<b>(24,434,197)</b>
<b>Closing Funding Surplus / (Deficit)</b>		<b>82,934</b>	<b>(539,420)</b>	<b>89,948,965</b>

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

**KEY INFORMATION**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments highly liquid investments with original maturities of twelve months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

**KEY INFORMATION**

Rates and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of rates and other receivables is reviewed on an ongoing basis. Other receivables that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

**SIGNIFICANT ACCOUNTING POLICIES**

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

All debenture repayments were financed by general purpose revenue.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

2022/23 Principal Repayments

**Principal**  
**\$1,038,904**

**Interest Expense**  
**\$143,379**

**Loans Due**  
**\$22.81 M**

<b>4</b>	<b>SUBJECT:</b>	Chief Executive Officer Resignation and Recruitment Commencement of CEO
	<b>DIRECTOR:</b>	Director Business Services
	<b>MEETING:</b>	Council Meeting
	<b>MEETING DATE:</b>	25 October 2022

---

### Summary

Mark Newman has formally provided his Resignation with his last day being 21 October 2023. Mark Newman was appointed the Chief Executive Officer in May 2003 and has held other senior management positions at the City of Mandurah since 1993.

It is recommended that Council:

- Formally acknowledge the resignation of the Chief Executive Officer effective 21 October 2023; and
- Commence the recruitment process of the Chief Executive Officer which includes:
  - Authorising the Chief Executive Officer to request quotes from Human Resources consultants to facilitate the recruitment process as outlined in Attachment 4.1.
  - Approve the Terms of Reference for the Selection Panel for the Chief Executive Officer as detailed in Attachment 4.2.
  - Authorise the Mayor to request availability, resume and a statement outlining their experience and knowledge of executive recruitment of the shortlisted independent people for the Selection Panel as detailed in Attachment Confidential 4.3.

### Disclosure of Interest

Nil

### Previous Relevant Documentation

Nil

### Background

Mark Newman has served as Chief Executive Officer at the City of Mandurah for over 19 years. During Mark's tenure, Mandurah has seen significant population growth, major infrastructure constructed such as Mandurah Ocean Marina, Mandurah War Memorial, Eastern and Western Foreshore Development, Mandurah Aquatic and Recreation Centre Redevelopment, Rushton Park Pavilion and Falcon Library and Community Centre and important environment initiatives such as the City's Bushland Acquisition program.

### Comment

The proposed Chief Executive Officer recruitment process will include:

October 2022: At the October 2022 Ordinary Council Meeting, it is recommended that Council:

1. Acknowledge the resignation of Mark Newman, Chief Executive Officer effective 21 October 2023.
2. Authorise the Chief Executive Officer to request quotes from a Human Resources Consultant to facilitate the recruitment process outlined in Attachment 4.1.
3. Approve the Terms of Reference for the Selection Panel for the Chief Executive Officer as detailed in Attachment 4.2.

4. Authorise the Mayor to request availability, resume and a statement outlining their experience and knowledge of executive recruitment of the shortlisted independent people as detailed in Attachment 4.3.

November 2022: At the November 2022 Ordinary Council Meeting it is recommended that Council:

1. Appoint HR Consultant to facilitate the recruitment process for the Chief Executive Officer in accordance with the agreed scope.
2. Appoint Elected Members to the Selection Panel for the Chief Executive Officer
3. Appoint the independent person to the Selection Panel for the Chief Executive Officer.

January 2023: At the January 2023 Ordinary Council Meeting, it is recommended that Council:

1. Approve the Job Description\* which includes the Selection Criteria for the Chief Executive Officer position.
2. Approve the Chief Executive Officer Total Reward Package to be advertised.
3. Approve the Advertisement of the Chief Executive Officer, including State-wide public notice.  
\* Absolute Majority Required

April 2023: At the April 2023 Ordinary Council Meeting, it is recommended that Council:

1. Accept the Selection Panel of the Chief Executive Officer Recommendation Report.
2. Approve/Not Approve\* the Selection Panel's recommendation and the making of the offer to Preferred Applicant to be employed in the position of Chief Executive Officer.
3. Approve\* the terms of the Chief Executive Officer contract of employment.
4. Authorise the Mayor to execute the Chief Executive Officer employment contract in accordance the terms of the Chief Executive Officer contract of employment, with minor amendments required that do not alter the key terms agreed to by Council.
5. Notes that subject to Preferred Applicant accepting the terms of the Chief Executive Officer employment contract, the applicant is appointed to the position of Chief Executive Officer.  
\* Absolute Majority Required

May/June 2023: At the earliest Ordinary Council Meeting after the Chief Executive Officer contract has been executed, it is recommended that Council certifies that the Chief Executive Officer recruitment process has been completed on the execution of the Chief Executive Officer employment contract and was conducted in accordance with the City of Mandurah's adopted standards for the Chief Executive Officer recruitment.

## Consultation

Not applicable

## Statutory Environment

Section 5.39A and 5.39B of the Local Government Act 1995  
Part 4 of *Local Government (Administration) Regulations 1996*

## Policy Implications

City of Mandurah Standards for CEO Recruitment, Performance and Termination<sup>1</sup>

## Financial Implications

It is estimated that the recruitment costs will be \$40,000.

<sup>1</sup>City of Mandurah Standards for CEO Recruitment, Performance and Termination <https://www.mandurah.wa.gov.au/-/media/files/com/downloads/council/governance/code-of-conduct/standards-for-ceo-recruitment-performance-and-termination.pdf>

## Risk Analysis

It is important that the recruitment process is in accordance with legislation and the City of Mandurah Standards for CEO Recruitment, Performance and Termination.

Council deciding on the job description and selection criteria will ensure that the preferred candidate will deliver Mandurah's vision.

## Strategic Implications

The Chief Executive Officer will be required to deliver all strategies included in the City of Mandurah Strategic Community Plan 2020 – 2040.

## Conclusion

It is recommended that Council acknowledge Mark Newman's resignation effective 21 October 2023 and the Council approve the commencement of the recruitment of the Chief Executive Officer.

NOTE:

Refer

**Attachment 4.1**  
**Attachment 4.2**

**Scope of Engagement of Human Resources Consultant**  
**Selection Panel for the Chief Executive Officer Terms of Reference**

**Confidential Attachment 4.3**    **Shortlist of Independent People**

## RECOMMENDATION

That Council:

1. **Acknowledge the resignation of Mark Newman, Chief Executive Officer effective 21 October 2023.**
2. **Authorise the Chief Executive Officer to request quotes from a Human Resources Consultant to facilitate the recruitment process outlined in Attachment 4.1.**
3. **Approve the Terms of Reference for the [Selection Panel](#) for the Chief Executive Officer as detailed in Attachment 4.2.**
4. **Authorise the Mayor to request availability, resume and a statement outlining their experience and knowledge of executive recruitment of the shortlisted independent people as detailed in Confidential Attachment 4.3.**

### Scope of Engagement of Human Resources Consultant

The City of Mandurah require the services of a Human Resources Consultant who has extensive experience in the facilitation of the recruitment of a Chief Executive Officer. The following services will be required to be undertaken:

- Facilitation with Council and finalisation of the Job Description and selection criteria for Council approval
- Assisting with the preparation and placement of the advertisement in the West Australian and other advertising channels
- Screening of Applicants and provide report to the Selection Panel including each applicants skills, assessment against the selection criteria and position description
- Preparation of Report for Selection Panel to carry out shortlisting
- Facilitation with Selection Panel for shortlisting
- Facilitation with Selection Panel for interview questions
- Coordinating interview process
- Facilitate the interview process and ensure Selection Panel assessments for each applicant has been completed
- Conduct referee and qualification/integrity checks of applicants
- Facilitation with Selection Panel to carry out recommended applicant/s for Council consideration
- If Selection Panel request, carry out second interviews for recommended applicant/s
- Facilitation of workshop with Council in relation to shortlisting, applicants and recommendation
- Preparation of Report for Council outlining a summary of assessment of applicants, recommendation and other relevant information
- Assist Mayor with carrying out contract negotiations with Council approved preferred applicant in accordance with Council's terms of the contract resolution

The Human Resources Consultant will not undertake the tasks for which the Council is solely responsible, including:

- Conducting interviews: This should be done by the Selection Panel. The Human Resources Consultant can provide support with interviews, providing advice on the recruitment and selection process and writing up recommendations. The consultant may also arrange referee reports and checks of applicants.
- Making the decision about who to appoint to the position of CEO. Only the Council can make this decision, drawing upon advice from the Selection Panel.
- Negotiate the terms and conditions of employment. Noting that the Human Resources Consultant should be able to provide advice on remuneration constraints and other terms and conditions.

#### Requirement

The Human Resources Consultant must have a current employment agent licence under the *Employment Agents Act 1976 (WA)*.

### **Selection Panel for the Chief Executive Officer Terms of Reference**

#### Objective

To carry out the recruitment and selection process of the Chief Executive Officer position in accordance with the *Local Government Act 1995* and the City of Mandurah Standards for CEO Recruitment, Performance and Termination.

#### Powers of the Selection Panel for the Chief Executive Officer

- The Selection Panel is formally appointed by Council and is responsible to that body. The Selection Panel does not have executive powers or authority to implement actions in areas over which Council has legislative responsibility and does not have any delegated financial responsibility.
- The Selection Panel is to report to Council and provide appropriate advice and recommendations to Council on matters relating to the recruitment of the Chief Executive Officer position.

#### Membership

- The membership of Selection Panel shall comprise of the Mayor, and a number of Councillors and an independent person as resolved by Council.
- Diversity of membership is encouraged and may be achieved by ensuring gender, ethnicity, age and experiential diversity is represented.
- Independent person means a person other than a council member, employee of the local government or human resources consultant engaged by the local government. Examples of an independent person include:
  - Former elected members or staff members of the local government;
  - Former elected members (such as a Mayor or Shire President) or staff members of another local government;
  - A prominent or highly regarded member of the community; or
  - A person with experience in the recruitment of CEOs and senior executives.

Note: The essence of the role of an independent panel member is to bring an impartial perspective to the process and reduce any perception of bias or nepotism.

#### Support to the Selection Panel

A Human Resources Consultant will be appointed to facilitate the recruitment process and support the Selection Panel in carry out the Terms of Reference. The Human Resources Consultant is not to be directly involved in determining which applicant should be recommended for the position, their role is not one of decision-maker.

#### Term

The appointment to the Selection Panel will expire after the execution of the Chief Executive Officer contract between the City and the approved applicant.

#### Meetings

The Selection Panel will be required to attend the following:

- Workshops with the Human Resources Consultant to draft job description, advertisement, interview questions, shortlisting and discussion relating to preferred applicant)
- Interviews of applicants

#### Reporting

The Selection Panel will be required to provide a recommendation to Council for the following:

- Job Description (including selection criteria)
- Total Reward Package
- Advertisement
- Preferred Applicant

Note: A report of the process, recommendation and the suitability of the preferred applicant to the position of the Chief Executive Officer will be required to be provided to Council.

Council must have regard to, but is not bound to accept, a recommendation made by the Selection Panel.

#### Functions, Role and Responsibilities

- Prepare the Chief Executive Officer job description which includes the selection criteria (essential and desirable), based on the local government's consideration of the knowledge, experience, qualifications and skills and duties and responsibilities necessary to effectively perform the duties and responsibilities of the position of CEO of the local government.
- Ensure all applicants are given an equal opportunity for success, selection methods need to be consistent and objective.
- Carry out structured interviews, each applicant given the opportunity to answer the same primary questions with follow-up questions used to illicit further detail or clarification. Behavioural-based interview questions are objective and gauge the applicants' suitability, reducing biases in assessment.
- Responsible for assessing applicants knowledge, experience, qualifications and skills of all applicants against the selection criteria and making a recommendation to Council regarding the most suitable applicant or applicants.
- Determine any requirements for applicants to complete psychometric, ability and aptitude testing.
- Successful applicant assessed as clearly demonstrating how their knowledge, skills and experience meet the selection criteria, with the recommendation made impartially and free from nepotism, bias or unlawful discrimination.
- Verifying the recommended applicant's work history, qualifications, referees and claims made in their job application

#### Confidentiality

It will be a requirement that Selection Panel members sign a confidentiality agreement and agree to the duties and responsibilities of their role set out in the Terms of Reference. This is to ensure that all information produced or obtained during the recruitment and selection process is kept confidential. This includes applicants' personal details, assessment details, the selection report and outcome of the process. This ensures privacy requirements are met and maintains the integrity of the process.

#### Desirable criteria for appointment to the panel

- Unconscious bias training
